TO MY WIFE,
On her Birth Day.

Another year has fled, love,
Since last for thee I sung,
And neither thou nor I, love,
Can longer sing "I'm young!"

For o'er the youthful bosom
Corroding care has stole,
And much of earthly sorrow
Intruded on the soul.

But while, with light and shadow,
Life seems a chequered scene,
Do not our hearts take courage
Beneath the lucid beam

Of hope, that ne'er deserts us—
But, like a faithful friend,
In hours of deepest sadness,
Whispers "wait to see the end!"

How great have been our blessings
Within the year that's fled!
More than we could ask or think of,
Has Heaven in mercy shed.

Even now, while I am writing,
A parent's greatest joy
Is given me in fulness—
I see my darling boy;

His little hands extended
To take my pen and ink,
As 'twere a pretty plaything—
What of this can he think?

High hopes inspire my bosom,
And fervent prayers arise,
That future rolling years may see
Our son both good and wise.

And oh, thou dearest mother,
For whose sake more dear is he,
May this but prove another
Of the links that bind to thee,—

Thus happily united,
O'er life's rough way we'll go;
Till all our trials ended,
Heaven's perfect rest we know.

THE LATE DISASTER ON LAKE MICHIGAN.—There is no longer room for doubt that the loss of the Phoenix together with the lives of more than 250 human beings, was caused by the most culpable and un-

credit the statements of the clerk to the editor of the Milwaukee Sentinel, discovered that the pumps did not work, and immediately reported the fact to the second engineer, who was, at the time, in charge of the engine. He did not seem to pay much attention to it, and refused to call up the first engineer. Soon after the fireman again went to the second engineer, telling him that the pumps did not work, and that the water in the boilers was very low. Before any steps had been taken to remedy the difficulty, and about 4 A. M., it was discovered that the boilers, having become red hot on top, had communicated fire to the boat. The fireman in the hold immediately took steps to stop the fire, but the progress of the flames was so rapid that they were soon driven out of the hold. The alarm soon became general—the passengers were all aroused, lines formed on deck, and water passed up in buckets, and poured on the flames. But it soon became apparent that all attempts to check the conflagration were utterly unavailing; and both passengers and crew began to think only of how they might save their lives.

The Milwaukee Sentinel gives the following particulars:

"When the boat left the propeller, those of the passengers and crew remaining on board betook themselves to the hurricane deck, the masts and rigging, for safety.—One man ascended to the mast head and there remained till the mast itself, supported by the flames, toppled over into the lake.—As the fire advanced the shrouds became thronged with human beings who, scorched by the ascending flames, gradually dropped off one by one into the burning hold.—Many, frightened or despairing, threw themselves into the lake, in the vain hope of struggling to the distant shore.

The boat with the captain, mate, five of the crew and 33 of the passengers, landed on the beach about 10 miles north of Sheboygan. Many, especially among the wo-

men, had nothing but their night-clothes on and suffered dreadfully from the cold. The captain kindled a fire on the beach, around which all gathered, till with the morning came wagons and welcome assistance from Sheboygan."

It is supposed that the emigrants from Holland, who perished by this disaster, had in their possession \$50,000 in gold. The Sentinel says:

"One young girl of 17, now at Sheboygan, is the sole survivor of a party of twenty-five, who had together, \$18,000. An old man, the father of nine children, is left to mourn the loss of all those for whose sakes he left his native land and emigrated to America. We hear of other and equally heart-rending cases."

THE DAILY NEWS.

Newport:

MONDAY, DECEMBER 13, 1847.

BY O. W. JACKSON, 97-THAMES ST.

There is nothing of interest, as yet, going on in Congress, and we presume that no important business will be agitated until after the holidays, which will be about the 10th of January, when the members will be fairly over the frolicking of Christmas and New Years, and prepared to attend to the affairs of the country. It would be a wise provision, did the Constitution compel Congress to adjourn on the fourth of March of each year; that would give them ample time to transact all the business before them, and they would have to work all the time, instead of playing three-quarters, as they now do. There would be no windy speeches made for effect, to send home to constituents, and all that sort of thing; the members would necessarily have to confine their remarks strictly to the matters under consideration, and they would accomplish us much in three months, as they now do in nine.—There is no earthly reason why the two Houses should not meet twice a day, and remain in session during the usual working hours, the same as our Courts; it certainly would not compromise their dignity. The committees would then have time enough to transact and prepare business, and the Congress.

The price of admission to membership of the Association of Mechanics and Manufacturers has been reduced to one dollar, and this also entitles the new member to a free ticket to the course of lectures which are now being given. We earnestly recommend this excellent institution to the attention of all the young Mechanics in this town; it has a large and valuable library, which is free to the members and their families. If more of our young men would early become members, and devote at least a portion of their leisure hours to the perusal of historical, scientific and other works which are there, it would have an influence on their minds which would materially assist in the formation of their characters; in after years, the community would reap the benefit of such early culture, and they would often have occasion to rejoice that they had improved the earlier and fresher moments of a life that must be toiled on earth. There is a solemn grandeur, a sublime eloquence in this existence through which we are struggling, and if we have faith in the grand issue, and perseverance through all its intricate labyrinth, we must triumph ultimately; and our evening will be, warring now with dark clouds of remorse or compunctions of conscience,—but the recollection of past virtuous deeds will shed a halo over the portal of the grave, and become the dark passage that leads to the better land of ceaseless happiness, in the realm of perfection.

We should like to know where the G. G. H. of the town were last Friday night, about 12 o'clock; there was a regular row at the foot of the Parade, and some thirty or more men gathered around the spot. Several of the men were drunk, and the others appeared to be enjoying the sport that was going on; their shouts and yells were the people in that vicinity, and yet the watchmen made no effort to stop the row, or disperse the following, although it all took place within a hundred feet of the Watch house.

City of Mexico, Oct. 21st, 1847.

My Dear —

Our entrance into this City was a bloody one, and the scenes through which we passed, after entering the gates, were anything but agreeable; there is an excitement, not altogether uninteresting, in a regular pitched battle, but when you come to street-fighting, there is a very material change in the sensations which are produced. The enemy planted his batteries at the head of many of the principal streets and squares, so as to command the entire length, sweeping everything within reach; in addition to this, men women and children were posted on almost every house-top and at every window, pouring down showers of balls, with an occasional sprinkling of stones.—Gen. Scott soon put an end to this thing, by ordering all the houses, from which these volleys were fired, to be destroyed; a few demonstrations caused the enemy to cease this mode of warfare.

For some days everything was in the utmost confusion, but order has been restored, in a great measure, and the City has now become Americanized to an astonishing extent. Two American newspapers have been started, and a third will probably be out in a few days; we have any quantity of Hotels, kept by Yankees, as the Mexicans call us all. We also have theatres, a circus, and nameless other places of amusement, so that we shall not be at a loss for means to employ our leisure hours, and occupy our minds when not engaged with professional duties.

The City is one of the finest, in many respects, that I have seen, although there are endless peculiarities about it which attract the attention of the stranger; there are some truly splendid buildings, in the erection of which the greatest architectural taste is displayed. The streets are uncommonly wide, much more so than is necessary, considering that they are not obstructed, as in our cities, by drays, carriages and wagons. The sidewalks are uncommonly narrow. The streets are all paved with round stones; the side-walks with very rough flat ones. The houses on all the principal streets are two and three stories high. The elevation of the rooms, from the floor to the ceiling, eighteen and twenty feet, gives to a house of two stories a great height, and the rooms are lighted or four feet high, answering all the purposes of a breast-work; it was from behind these that the Mexicans fired upon us, as we entered the city.

The streets cross each other at right angles, dividing the whole city into squares. Each one of the squares is called a street and has a separate name; a very serious inconvenience to a stranger. Instead of designating the street in its whole extent, by one name, and numbering the houses, each side of every square has a different name, and names which sound to Protestant ears, very much like a violation of the Third Article of the Decalogue; such as the street of Jesus, and the street of the Holy Ghost. A gentleman will tell you that he lives in the Holy Ghost, or that he lives in Jesus; certainly not always true, if taken in the sense in which our preachers use these words.

There is not a house in Mexico, I believe, that has not a patio or court, an open space in the centre. There is only one door on the lower floor, and none at all on the outside of the upper story. This door is very strongly built, and high enough for a coach to pass through; it opens into the court through which you pass to the steps leading to the upper stories, where alone everybody lives except the lowest classes.

The President's Palace, formerly the palace of the viceroy, is an immense building of three stories high, about five hundred feet in length, and three hundred and fifty wide; it stands on the site of the Palace of Montezuma. All the public offices are kept in this immense block; the halls of the house of deputies and of the senate are also in the same building. Gen. Scott's headquarters are in this establishment.

The Cathedral, which occupies the site of the great old temple of Montezuma, is a most magnificent building; it is five hundred feet long by four hundred and twenty wide. I may, at some future time, give you a description of this truly splendid affair.

Cheerfulness is perfectly consistent with piety.

GENTLE HINT.—Every one should put it an outrageous and unpardonable lack of good manners, to go into a g office and read the Editor's MSS. upon his desk, or to take it from his eyes, or look over the compositor's press, and thus obtain a knowledge of it contains,—or to stand behind the as he is writing, and deliberately sue after line, as he communicates his hints to paper. This is very provoking, and it often occurs, and is done by s and those who ought to know better. We should be quite as willing to have you come in and take our private letter from our pocket and peruse them to satisfaction, as for them to pursue the re of which we have been speaking; it would be no more a branch of etiquette, in visiting a printing office, people should never look at any copy laying on desk, or on the compositor's stand, or the matter of the galleys. We throw these gentle hints, with the hope that who are in the habit of visiting printing os, will be benefitted by them, and go themselves accordingly. We are all glad to see our friends, but it really ays us exceedingly to have any one idling with our business, in the way of wh we have spoken. "A word to the is sufficient." Is there not still virtue truth in this ancient proverb?

James W. Smith, Esq., of Brown University, is to deliver a Lecture on Temperance in the Methodist Church this evening.

ON WITH THE DANCE.—Mr. D. T. Capron, of Providence, gives a Cotillon Parlay at Masonic Hall to-morrow Evening, and is nothing of the kind has been given here or some time, we suppose all who "trip the light fantastic toe" will be in attendance.

Young Tom Munro is said to be the latest hand at opening oysters in this town, and from the way he rattles them out at the Florence Oyster Saloon, we should think he was.

The State of Maine will hereafter elect her Governor, Senators and Representatives, by a plurality vote. The amendments for the purpose of making this change.

The Rev. Fitch W. Taylor, Chaplain in the U. S. Navy, has just published a very interesting work, giving an account of his cruise in the flag-ship of the home-Squadron, in the Gulf of Mexico, during eighteen months. Mr. Taylor is a graphic writer, and his books, several of which he has before published, are among the most readable that we know of. He had an ample field from which to glean the richest materials, in the Gulf, and he has arranged them in such a manner as to make the book most acceptable.

TROOPS WANTED.—It appears by the estimate of the War Department that the total number of recruits (inclusive of re-enlisted soldiers) required for the military establishment, exclusive of the enlisted men of the ordinance department, for the year commencing July 1, 1848, is 14,823.

GREAT SPEED.—Mr. Griswold, the mail agent, who brought the President's Message by express, accomplished the distance between Washington and Jersey City, (225 miles,) in eight hours and a half, including stoppages.

PRINTER'S CELEBRATION.—The Franklin Typographical Society of Boston are making great preparations to celebrate the birth-day of Franklin.

The following toast was given at the Concord Cattle show dinner:—

Uncle Sam's Farm.—The only farm where draining is carried on all the year round.

WONDERS AND PROFITS OF THE TELEGRAPH.—The Boston and New York telegraph transmitted to and from those cities, Wednesday, over ten thousand words—a fact which evinces at once the wonders of this extraordinary and novel means of communication. There can be no doubt that telegraphic stock will be, ere long, if, indeed, it is not now, the most profitable stock that a man can invest his capital in.

FROM NEW ORLEANS.—News has been received from New Orleans to the afternoon of the 2d inst. The public reception of Gen. Taylor had been postponed to the 3d. The General was to ride one of his favorite war-horses which he had brought from Matamoros, and it was expected that the public display would surpass any ever witnessed in New Orleans. Business was entirely suspended.

JALAPA.—Col. Wynkoop, who had been appointed Governor of Jalapa, commenced issuing proclamations and official orders on the 3th of November. He encourages merchants to resume business and open their stores, pledging to them and to the inhabitants generally, full protection. He has prohibited the sale of ardent spirits by retail, under heavy penalties, and the Mexican public property is made responsible in case of the commission of crimes. The Mexican authorities, civil and judicial, are restored to the full exercise of their functions, and all disputes among Mexicans are to be settled by them.

The Washington Union of Thursday says that by proper applications, Secretary Walker will soon recover from the exhaustion consequent on his over-exertion.

A duel was fought on Thursday last, near Newark, between a New York and a New Jersey gentleman. Three shots were exchanged, one of which passed through the pantaloon, and another through the hair of the Jerseyman, when the matter was settled.

The largest cheese ever made in the West, says Cist's Advertiser, "was manufactured at the dairy of E. Follett, of Licking County, Ohio. The milk of one hundred cows for four days constituted the staple of the cheese. It measures forty-eight inches in diameter, is sixteen inches thick, and weighs one thousand pounds."

GREAT FRESHET.—The Philadelphia papers have the following dispatch, dated Cincinnati, Nov. 26:—

The Kenawana river on Friday last, rose 40 feet in thirty hours, overflowing the Salt Works, and destroying one hundred thousand bushels of salt. Great damage was done to the Salt Works all along the line of the river, and large quantities of valuable timber washed away. The river was still in flood.

The Foreign News is regarded in New York as decidedly favorable in a commercial point of view. The circulars and letters from English houses furnish evidence that the crisis has passed, and that the improvement which has already commenced on the other side will continue.

TELEGRAPHIC PERFORMANCE.—The President's Message was transmitted by telegraph to St. Louis in twelve hours. It required skilful operators and incessant application.

TROOPS FOR MEXICO.—A detachment of troops embarked on Wednesday last from Fort Columbus New York harbor, on board the transport-ship Ocean, bound for Vera Cruz. It was composed of 230 recruits, under command of Capt. U. S. Henry, 3d infantry.

WILLIAM NEWTON,
150 Thames Street, Newport Rhode Island,
AGENT FOR THE
CANTON & PEKIN TEA COMPANY
OF New York.

THIS Company, although it cannot boast of being "The oldest Tea Establishment in America," does claim to have sold during the two years of its existence, more good, pure, and unadulterated Teas, and at lower prices, than any other similar establishment in the United States.

The following is a list of their retail prices, which will be found to be nearly the same as those of similar Companies. The only difference they claim is in the quality of the Teas.

The Teas mentioned in the above catalogue are put up in Quarter, Half and Pound Packages, made perfectly air-tight, and warranted to be well worth the price marked on the label; if they are not found to be so, they can be returned at any time and the money will be refunded.

The Canton and Peking Tea Company, although not the exclusive vendors of the justly celebrated "Howqua Mixture," can still accommodate their customers with it, at a price and of a quality which will bear comparison with any other.

The citizens of Newport and vicinity are respectfully invited to call at the above store, 150 Thames-st., and test the qualities of these Teas, as the company are confident, after purchasers make one trial, that an extensive custom will be secured.

The great and only Successful Remedy for the cure of Consumption,

IS Dr. E. W. Vandersmith's INDIAN COUGH BALM AND LUNG BALM.

READ—
Disease of the Lungs and Throat cured.

White Plains, April 20, 1847.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had lunar caustic applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been afflicted for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V. and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON.

Sworn before me this 21st day of April, 1847.

A. L. MICKLE, Mayor of the City of N. Y.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vandersmith:—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing fits, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is just, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,

JAMES B. HENDERSON,

No. 703 Washington street.

Sworn before me this 13th day of June, 1847.

W. V. BRADY, Mayor of the City of New York.

Consumption.

Staten Island, June 10, 1847.

Dear Sir:—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing tube, I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c. ROBERT WILLEY.

Dr. B. B. BARRON'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them.

If you do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in all chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.

Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one-quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken, under all circumstances, without regard to drinks or diet.

Hyer's Pills.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand more assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

General depot 140 Fulton st. 2d floor, N. York between Nassau and Broadway.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGLE, 223 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by Wm. Bogle, accompanies each bottle. Aug. 24—ly.

MR. ABRAHAM VANDERBEEK, of 38 Avenue D., New York, certifies that his head was entirely bald on the top, and by the use of two 3s. bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.

Gray Heads! Gray Heads! Read—I hereby certify that my hair was turning gray, and that since I have used Jones' Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark lock. Before I used Jones' Coral Hair Restorative, I combed out handfuls of hair daily. WM. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair choked up with dandruff, and Jones' Hair Restorative entirely cured it.

Do you want to dress, beautify, and make your hair soft and fine? Read—I, Henry E. Cullen, late barber on board the steamboat South America, do certify that Jones' Coral Hair Restorative is the best article I ever used for dressing, softening, cleansing and keeping the hair a long time in order; all my customers preferred it to anything else.

GENUINE BEAR'S OIL.

Highly Perfumed.—Perhaps our ladies and fashionables are not aware that three-quarters of the "Bear's Oil," (so called) with which they anoint their locks, wondering that it does them so little good, is nothing in the world but hog's lard, so highly scented as to escape detection, save on close examination. This, however, is simply the fact, and one that ought to be known. The only safe way is to purchase your Bear's Oil of HENRY JOHNSON, who gets it direct from Canada and the North Western Territory, and who never sells an ounce until he knows it to be genuine. The real Bear's Oil is a wonderful beautifier and strengthener of the hair, and should be used by every one desirous of beautiful locks.

CLICKER'S SUGAR-COATED PILLS.

The grand purgative for the cure of headache, piles, rheumatism, dyspepsia, scurvy, small pox, jaundice, rising in the throat, fevers of all kinds, heartburns, coughs, consumption, erysipelas, deafness, colds, gout, gravel, pains in the back, palpitation of the heart, inward weakness, dropsy, asthma, measles, salt rheum, worms, quinsy, whooping cough, fits, liver complaint, itches of the skin, nervous complaints, and a variety of other diseases, arising from impurities of the blood, and obstructions in the organs of digestion.

CAUTION.—Beware of an imitation article called Improved Sugar-Coated Pills, purporting to be patented, as both the pills and pretended patent are forgeries, got up by a miserable quack in the city of New York, who for the last four or five years has made his living by counterfeiting popular medicines.

Remember, Dr. C. V. Clicker is the inventor of sugar-coated pills, and that nothing of the sort was ever heard of until he introduced them in June 1843. Persons should therefore always ask for Clicker's sugar-coated pills, and take no others, or they will become the victims of a fraud. 25 cents per box, or five boxes for \$1.

Sold in Newport by R. J. Taylor, and by one agent in every town in New England.
